SUIT DEPARTMENT.

In this Department we claim to have extraordinary facilities for making and selling Ladies' and Misses' Suits and Cloaks at lower prices than the materials alone would cost where you live. In the first place, we keep the goods of which every garment is made, for sale; we buy the material, lining, trimmings, buttons, etc., etc., at headquarters and in large quantities, hence have a saving of at least 15 per cent., which the jobber charges the retailer, or 25 per cent. profit which every one of your retail dealers charge you. Next, we buy machines at fully 40 per cent. less than regular prices, which is another item you save. On every garment made by us we employ designers, cutters, improvers, finishers, trimmers, and dressmakers. This combination results in each one doing her own work more skillfully and economically than one or two dressmakers could do by themselves. This again affords our patrons a saving which we are satisfied amounts to considerable.

We import our own designs and pattern dresses from Paris and Berlin, from which we get the very latest styles and ideas, which are entirely out of the reach of the small dealers whether in or out of the city. We imitate so exactly these imported Suits in our workroom that we ourselves are unable frequently to distinguish the original from the imitation. Those we make are always from 50 to 100 per cent. less than the original; therefore we can get up and forward you a Suit at $20 which was really imported at $40 to $75, and you can safely defy the best expert to tell the difference. By these means we get the newest and most fashionable styles at prices that surprise all.

SHOE DEPARTMENT.

The great success of this department, now in full operation, encourages us to devote to it special attention, believing, as we do, that it contributes largely to the public convenience. We make a specialty of HAND-SEWED SHOES, which, being of our own manufacture, we are able to place before our patrons at prices less than is generally paid for machine-made shoes. We claim that a hand-made shoe has no equal, either for style, durability, or comfort on the foot. We keep a full line of these goods, in addition to which we make to order the finest shoes produced in the country. DIRECTIONS FOR SELF-MEASUREMENT.

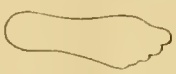
In sending the measure, mention the size of the boot usually worn, and whether an easy or a close fit is desired.

1st.—Place the foot on a sheet of paper, and mark with a pencil as shown in Figure A, which will give the length, breadth, and natural shape of the foot. This should be done while the person is sitting, and not while standing.

Fig. A.



2d.—Measure around the foot as shown in

Fig. B.

1. Ball of Foot.
2. Instep.
3. Heel.
4. Ankle.
5. Top.

In cases where the foot is unproportioned, and cannot be fitted from the regular stock 50 cents extra is charged for making the boots to measure.

Customers own embroidered slipper uppers, for gentlemen, made up in the best manner, and to fit correctly, by sending an old slipper or shoe the size required. Toilet style, $3.00; Plain, $2.75.

We are introducing this season a NEW STYLE of LADIES' FANCY CLOTH-TOP, FOXED BOOTS, with a medium box toe and Castilian instep, which are pronounced to be the handsomest produced in this city. The tops are made in all the fashionable shades prevailing this season; nothing but the best imported materials being used.
